

SAFETY & HEALTH PROTOCOLS FOR SUMMER CAMPS 2021

WAYS WE ARE PREPARING AND MAINTAINING THE SPACE

- Theatre Arlington has invested in a sanitizing mister, which will be utilized the day before camp begins, and at the end of each camp day. The mist coats all surfaces, soft and hard, and utilizes a hydrogen peroxide mixture which will dissipate before the next camp day.
- Bathroom surfaces will be wiped down by staff mid-morning, after lunch, and mid-afternoon with a disinfecting cleaning solution.
- All doorknobs, light switches and handrails will be cleaned at the end of the camp day.

PERSONAL SAFETY

- All theatre and camp staff members will wear a mask in common areas
- Campers are asked to wear a mask to camp and in all common areas
- No one will be allowed to enter either building if they are not involved in camp or daily theatre operations.
- There will be no live performance at the end of the camp. More information is coming!
- Camp staff and campers will have their temperature taken and logged at the beginning of the camp day. Anyone with a temperature of 100.4 or above will be asked to go home until they are free of fever.
- Campers will be given a hand sanitizing wipe when they get to camp in the morning and will be asked to use it before entering the building. Likewise, hands will be washed at the end of the day before campers leave.
- Staggered drop off and pick up times by age group
- Campers will be asked to wash hands at break times, at lunch, and any time they visit the bathroom.
- No staff member who is not involved in camp will come into direct contact with your child
- Camper groups will be in their own space with designated bathrooms and will not interact or rotate from space to space, with instructors rotating as needed to each group.
- Only one camper will be allowed in the bathroom at a time.
- One staff member has been designated as the health and safety coordinator and will assist with checking in campers and in the event a camper becomes ill.

DROP OFF PROTOCOL

- Enter the education building parking lot and wait in the drop off line at the parking lot door. Please do not exit your car.
- Place the group designation sheet (included in your confirmation email) where it can be seen on the driver's side of the car.
- Your camper's group intern or the camp health and safety coordinator will meet your camper, check them in and take their temperature and log it as they exit the car.
- Once your camper has been okayed, please exit the parking lot.

PICK UP PROTOCOL

- Please enter the education parking lot at the designated time and wait in the pick up line.
- Interns will check your camper out and send them out to the car at the designated time and as we can see your car. If you arrive early, please drive around the block so we can take care of the groups in the correct order.
